

TEHODA

The Journal Of The
Israeli Physics Teachers

Vol. 36, August 2018

Editorial	3
<i>Enrichment</i>	The floating bear - Yiftach Navot	4
	Creativity and cognition in embodiment learning of physics concepts - Roni Zohar, Esther Bagno, Bat-Sheva Eylon, Dor Ahabramson.....	19
<i>News from the Lab</i>	Measuring the binding energy of an electron in semiconductors - Mark Geller, Alexander Rubstein	35
	Bringing the particle physics into classes-Building a fog chamber - Kobi Shvarzbord....	41
<i>From the class</i>	Do students find it difficult to deal with conceptual problems even after solving 1000 quantitative physics problems?- Nirit Vardi, Reuven Ben-Asooli	47
<i>Enrichment</i>	Physics in science museums - Ronen Mir, Netzach Farbiash.....	52
<i>Awards</i>	Amos de-Shalit reward to an outstanding physics teacher-reyad gara.....	59
<i>Our former students today</i>	Reyad Gara	62
